

GQ Series

GQ 20A1

Enclosed Design
Marking System

Enclosed.

Efficient.

Especially Safe.

Focus Finder

Easy to use focus finder system, ensures the precise laser marking process and save you more time.

GQ 20A1 has the newly enclosed design which fully complies with German safety regulations.

Integrated self-shutdown system and the optional waste air exhaust system ensure the health condition and the safety of the operating personnel. When the door opens unexpectedly, or emergency button is pressed down, the system will automatically shut down.

From 20W to 100W, we will provide the most suitable laser marking source based on your needs. No matter you want annealing, engraving, ablating, etc., GQ 20A1 can achieve your desired results with no problem. Focus finder system, pilot laser, easy to use software, motorized Z axis, all integrated features will make your marking process more efficient and productive.
