

TILTINDICATOR 3in1

Mounting Instructions

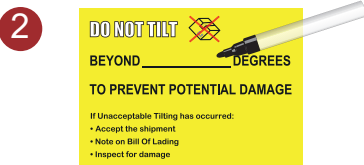

TILTINDICATOR '3in1' Placement

Place the TiltIndicator '3in1' in upright position at a bottom corner for left/right tilt detection.

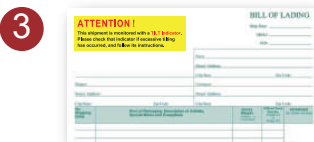

To also monitor front/back tilting: place a 2nd device on an adjacent side.

- Keep the TiltIndicator '3in1' **upright** during and after removal of the backliner, as from that point on it is armed and ready to activate.
 - Stick the indicator firmly on the parcel.

- Write the unacceptable degree/angle of tilting on the instruction label.
 - Place that close to the indicator on the parcel.

- Stick the alert sticker on your bill of lading.
